Wastewater Technologies, Inc	Rick Pezza	401-737-7810
Wastewater Treatment Services, Inc	Jim Dunlap	508-880-0233 (FAST Systems only)

**Recommendations to homeowners before having septic system inspected:**

- It is a good idea to get multiple bids before having your system inspected.
- Make all information needed in data collection step available to inspector.
- Ask inspector about discounts for inspecting and pumping at the same time.
- Make sure you are home when you schedule and inspection so that you can answer any questions.
- Ask questions during the inspection so you can stay informed of how your septic system operates.
- Make sure that the inspector gives you a copy of the completed inspection report and an itemized bill detailing all charges associated with the inspection procedures.
